

Two Copeland "R" Units Cool Milk from 140° to 40° in Clawson Dairy

LITERATURE OF MANUFACTURERS

Catalogues, bulletins, and direct advertising material recently issued. Manufacturers are requested to send copies of new trade literature promptly to Electric Refrigeration News.

Bohn

A broadside telling of the use of Bohn refrigerators in all sections of the country has been received from the Bohn Refrigerator Co., St. Paul, Minn.

Particular emphasis is placed on the installation of a large number of Bohn refrigerators on the airplane carrier, U. S. S. Lexington, a vessel costing the government more than \$35,000,000.00.

Dry-Kold

Two catalogs, Nos. 17 and 18, have been received from the Dry-Kold Refrigerator Co., Niles, Mich., illustrating their line of refrigerators for grocers, butchers, hotels, restaurants, clubs and hospitals. Both catalogs give illustrations and detailed information as to the construction of each model.

Seeger

A broadside has been issued by the Seeger Refrigerator Co., St. Paul, Minn., showing their line of commercial porcelain, and wood exterior cabinets. Eleven all porcelain cabinets and eight models finished in oak are illustrated with specifications.

Solvay

A thirty-page book on Solvay calcium chloride for refrigeration has recently been issued by the Solvay Sales Corp., 40 Rector St., New York City.

In an interesting manner the book presents the history of Solvay calcium chloride, its general properties, the essential characteristics of a refrigeration brine, and corrosion in refrigeration systems.

Tables showing the properties of ammonia, the time required for freezing ice, and other data of value to refrigerating engineers are included.

Trupar

Four leaflets have been received from the Trupar Manufacturing Co., 140 Davis Ave., Dayton, Ohio, which show commercial and apartment house equipment manufactured by them. Eleven steel and porcelain cabinets are shown, with specifications for each model. A Trupar compressor is also illustrated. Two types of apartment installations are explained in one of the leaflets.

The necessity for the removal of animal heat from milk as soon as possible after it is milked is recognized by all dairymen. The problem of immediate cooling and the continued maintenance of low temperatures in the Clawson Dairy at Irwin, Pa., was worked out by the McKean Co., Pittsburgh Copeland distributors. Two interior views of the Clawson Dairy are shown at the left and right in the photographs above and the two model R Copeland compressors appear in the inset.

Just back of the milk cans appearing in the right-hand view is a milk storage cooler in the bunker of which are mounted brine tanks having a capacity of 218 gallons of brine. The brine pump which can be seen on the outside of the cooler just

above the milk cans, pumps the brine from the tanks over to the aerator which can be seen in the view on the left.

After the milk has been Pasteurized it is run through the aerator at a temperature of 140 degrees Fahrenheit and is there in first reduced 60 degrees by circulating water. With the milk now at 80 degrees it is further reduced by the circulating brine to 40 degrees. The brine temperature in the tanks during the process of cooling fluctuates from 18 degrees to 34 degrees. This installation has a capacity of 80 gallons of milk at one operation.

Following this first cooling the milk is then placed in the cooling room on the right where it is maintained at a constantly low temperature.

"PLEASE CHANGE MY ADDRESS"

Recent movements of Electric Refrigeration News subscribers as indicated by requests for changes in mailing addresses.

Brown, Fulton, from 62 Summer St., to 11 Beacon St., Boston, Mass.

COMMENDS WILSON'S ARTICLE ON MULTIPLE INSTALLATIONS

The X. L. Refrigerating Co., Inc.
59th and Honore Streets
Chicago, Illinois

August 22, 1928.

Mr. Fremont Wilson,
50 Church St.,
New York, N. Y.

Dear Sir:

Allow us to congratulate you on your excellent article in ELECTRIC REFRIGERATION NEWS.

The refrigerating industry needs just such men as you who have the intestinal fortitude to call a spade a spade regardless of who it hurts.

Constructive criticism along these lines is good for everyone concerned, and can only serve to make refrigeration installations safer and safer.

More power to you, and let's have more of these articles.

Very truly,
X. L. Refrigerating Co.,
W. C. Hilger.

South Carolina Frigidaire Men Convene at Columbia

Frigidaire dealers and salesmen in South Carolina attended a midsummer meeting held at the Jefferson hotel, Columbia, on August 15. Several executives of the Frigidaire Corp., Dayton, Ohio, attended the meeting. Plans are being made for a big anniversary celebration of the South Carolina branch to be held in October.

The Southern Electric Co., Augusta, Ga., recently installed Frigidaire equipment in the Colonial Court apartments.

A General Electric refrigerator has been installed for Dr. McCabe, of Frederick, Colo., by the Longmont Hardware & Implement Co., Longmont, Colo.

The Chapman Drug Co., Knoxville, Tenn., has installed Frigidaire cooling equipment in the Knoxville courthouse.

NEW DEALERS & DISTRIBUTORS

REQUESTS FOR INFORMATION

Readers who can assist in furnishing correct answers to inquiries or who can supply additional information are invited to address Electric Refrigeration News, referring to the query number.

Who Made the Fridger Refrigerator?

Query No. 120—"Can you give me any information regarding a refrigerator called the Fridger? It was on the market about ten years ago. Any information will be appreciated.—E. C. S., Port Jarvis, N. Y.

THE CONDENSER

ADDRESS REPLIES to box advertisements to Electric Refrigeration News, 554 Maccabees Building, Detroit, Mich.

ADVERTISING RATE fifty cents per line (this column only).

SPECIAL RATE if paid in advance—Positions Wanted—fifty words or less, one insertion \$2.00, additional words four cents each. Three insertions \$5.00, additional words ten cents each. All other classifications—fifty words or less, one insertion \$3.00, additional words six cents each. Three insertions \$8.00, additional words sixteen cents each.

POSITIONS WANTED

Wish to make connection with dealer or distributor, have had sixteen years experience, all branches of refrigeration. At present employed as District Sales Manager, but desire connection where duties will not require as much traveling. Capable organizing and controlling retail sales department. Confident can convince as to ability and character. Box 100.

Sales organizer formerly connected with electric refrigeration manufacturer doing sales organization work, and as branch manager, supervising sales, installation and service, desires making connection with manufacturer or large distributor in managerial capacity. Have been branch and division manager for several other concerns, understand resale operations and have contacted central stations. Box 101.

SALES ENGINEER, 3 years with Kelvinator Corp., applications, engineering, estimating, instructions, literature, etc. Graduate M. E. Cornell, 27 years old, single. Desires position with manufacturer or distributor, any location. Box 102.

Service Engineer. Domestic and commercial electric refrigeration. Qualified by practical experience to take charge of service and installation departments including stock and parts, also keeping of cost records. Over 12 years' experience handling service in mechanical lines. Preference, Kelvinator-Nizer. Box 103.

SALES MANAGER—Two years traveling merchandise manager, two years traveling sales manager well known organizations, experienced in training salesmen, preparing sales literature and in organizing sales activities. Dealer following in principal cities. University education, thirty-eight years old. Available now. Address Box 104.

SALES EXECUTIVE—with pep and personality backed by 15 years successful sales and organization experience handling new and difficult lines, advanced purely on merit from commission basis to better than average salary with old established nationally recognized institution. Interested only in high class connection where prospects justify top efforts. Fitted by experience and education for American or Latin-American territory. Box 105.

Index to Volume III, by Names and Subjects

Part I, Index of Subjects

NOTE—In compiling an index of Volume III, which includes those issues from September 12, 1928 (Serial No. 51) to the present issue (Serial No. 76) two main divisions were made and all issues with the exception of the present one were included. First, the subjects of principal articles, editorials, illustrations, and displays are listed below in Part I, to enable readers to locate various discussions or articles that have appeared in the news columns. Second, names of companies and individuals prominently mentioned are listed in Part II, which starts on page 27.

INDEX OF SUBJECTS IN VOLUME III

(Continued from Page 25)

Servel offers safety patent to industry on 7-17-29—p. 12.
Williams, E. T., proposes plan to limit leakage in 8-14-29—p. 22.
Wilson offers additions to code for 1-30-29—p. 9.

N

Nameplate should bear performance data. 1-30-29—p. 14.
National Electrical Code, revisions in. 2-13-29—p. 14.

O

Oklahoma City adopts code. 3-14-29—p. 19.
Outdoor Advertising, Christmas. 10-24-29—p. 8.
poster. (photo) 9-16-29—p. 16; 4-24-29—p. 24.
new form of. (photos) 10-10-29—p. 1.
Old machines, why compare with new. 2-13-29—p. 9.
Omaha plans to adopt safety code. 8-14-29—p. 22.

P

Packaged meat. 8-14-29—p. 6.
Packing house, installation in. (photo) 4-24-29—p. 4.
Patent data, Audiffren, No. 898,400. 4-10-29—p. 45.
Ballantyne, No. A76,358. 4-10-29—p. 26.
Ball, Charles J. 9-12-29—p. 6.
Birk, No. 451,705. 4-10-29—p. 53.
Block, No. 623,270. 4-10-29—p. 26.
Boyle, David. 9-12-29—p. 6.
Brady, No. 1,037,423. 4-10-29—p. 52.
Carre, Edmund. 9-12-29—p. 6.
Coleman, No. 706,814. 4-10-29—p. 45.
De La Vergne, John C. 9-12-29—p. 6.
Emerson and Bishop, No. 962,704. 4-10-29—p. 26.
Evans, No. 328,380. 4-10-29—p. 45.
Frick Co. 9-12-29—p. 6.
Gorrie, John. 9-12-29—p. 6.
Harrison, James. 9-12-29—p. 6.
Hill, No. 17,071. 4-10-29—p. 53.
Holden, D. H. 9-12-29—p. 6.
Johnson, H. C. No. 327,784. 4-10-29—p. 43.

Reduced Rates for Group Subscriptions

10 or more subscriptions
entered at one time
\$1.50 per year each.

20 or more subscriptions
entered at one time
\$1.25 per year each.

Single Subscription \$2.00 per year
Above rate is for United States and Possessions. All other countries \$2.25 per year.

Special \$5.00

Group Subscription Order

For paid-in-advance subscriptions in United States only.

Papers will be mailed to individual addresses.

Send check with order.

Note: The \$5.00 special offer applies to 3 subscriptions for 1 year each, or 6 subscriptions for 6 months each or 12 subscriptions for 3 months each.

Electric Refrigeration News,
550 Maccabees Bldg., Detroit, Mich.

Gentlemen: Enclosed find \$5.00 for new subscriptions as follows:

Name.....
Street.....
City and State.....
Name.....
Street.....
City and State.....
Name.....
Street.....
City and State.....
Name.....
Street.....
City and State.....

Write additional names on a separate sheet and attach to this coupon; six names will indicate six subscriptions of six months each; twelve names will indicate twelve subscriptions of three months each.

Part II, Index of Names

NOTE—Part II, following, contains a listing of names of companies and individuals who have been prominently mentioned in the news columns of this volume, also authors whose names have appeared over news and feature stories.

An index of the subjects of principal articles, editorials, illustrations and displays will be found on pages 25 and 26.
